H.E. Salva Kiir Mayardit,
President, Government of Southern Sudan,
Juba, Southern Sudan

1st October 2010

Your Excellency:

It is my pleasure to write to you at the introduction of Dr. James M. Kajete. As Dr. Kajete has made me aware, Southern Sudan stands at the start of a new era of peace, and has taken a gallant stand to assist SWANSat in putting a worldwide infrastructure for telecommunications that will benefit not just your country, but people world wide.

Dr. Kajete is keenly aware of the work of the Global Settlement Foundation in bringing about a stable, lawful money so that SWANSat can go to orbit without being affected by the ongoing financial crisis.

When the people on the land live under *lex terrae*, the common law, use money that is objective and cannot be made up by any man, voluntary lawful contracts in all manner of commodities and risk are traded in the markets, the free movement of men and materials creates the virtuous cycle of wealth generation.

As someone who has authored the *Finality of Settlement Part I and II* I can assure you of unflinching support for those who abide by the common law and use lawful money. It is my intention to see to it that the people on the land shall return to their natural state of sovereignty, freedom and peace.

Yours truly,

Joseph Ray Sundarsson
